

## SOUTH AFRICA SUMMER INITIATIVE

Project pages

An immersion in cultures and communities, landscapes and wildlife that will captivate any visitor.

Over the past 20 years, South Africa has gone through some remarkable changes - most notably the abolition of apartheid through Nobel peace prize winner Nelson Mandela.

Located at the southernmost tip of Africa, South Africa attracts more visitors than anywhere else in the continent, drawn to its exciting and diverse landscape and culture; Modern cosmopolitan cities like bustling Johannesburg; stunning natural scenery at Table Mountain National Park; the extremes of the Karoo Desert; the snow-capped peaks of the Drakensberg Range; the fresh lush coast of KwaZulu-Natal and of course the opportunity to spot the "Big 5" at the world famous Kruger National Park.

The Garden Route National Park is the newest South African national park and is one of South Africa's most important conservation areas as well as one of the country's crown jewels in terms of biodiversity. For this reason, Kaya participate in an annual event established after the devastating fires in the Krysna estuary.

### Life Within the Project

# Tree Planting and Environmental Education Summer Initiative in South Africa

SOUTH AFRICA

## The project

If you would have an interest in working with communities while developing your own knowledge on issues such as reforestation, recycling and permaculture, you should consider volunteering in our tree planting and environmental education summer initiative. Every year, we going efforts with local organisations in Africa to promote tree planting and environmental education. This summer, the initiative will be taking place in South Africa.

The initiative is hosted in collaboration with local community leaders, schools, youth and farm groups to try to change attitudes, create unity within the communities and build a sustainable eco-legacy. Individuals, friends and small groups will join this initiative at the national and international volunteering levels to work as part of small teams led by regional experts. The aim of this year's initiative is to help address the deforestation that occurred during devastating wildfires in June 2017 in the Eden District along South Africa's beautiful Garden Route. The fire really impacted the social and environmental communities in the area. The initiative aims to rebuild and help regeneration through the planting of indigenous trees, while introducing ecosystem processes to the locals, and removing alien vegetation and catchment management.

Weeks 1 and 2 are specifically for high school students. Week 3, all participants of all ages are welcomed. Whether you are a university students interest in environmental topics, professionals keen to take a holiday to make a difference, study groups wanting to do field work, families who love adventure or individuals, this is a great placement for all who wants to be active and change the way we treat the environment.

Be part of this mass action project and help generate solutions that ultimately aim to prevent flooding and a decline in biodiversity that are the common outcomes of deforestation.

## Role of the volunteer

During your placement, you will have the opportunity to do tree planting, eco-education at local schools, mural painting, natural building using natural and upcycled materials, nature immersion learning its healing properties, and permaculture. During your free time, you will have the chance to connect with like-minded individuals coming from all over the world, while doing yoga, mindfulness, dance-offs, up-cycling and sustainability workshops!

## Skills required

There are no specific skills required for this program other than being fit and healthy, as this is a hands-on placement. Being able to work as part of a diverse team and live in a closed environment is important. Enthusiasm and a willingness to do what is required during every task is needed, especially as you will be inspiring others to change their habits. Come with a spirit of adventure and passion for the environment and make the most of this incredible learning experience.

## Why choose this project

## Program Flexibility

Kaya programmes are different from travel or adventure programmes. Each development project and work experience placement is unique and often cannot be implemented exactly as planned for a variety of reasons. Itineraries shown are a guide and the order of activities may be shifted in line with factors, including, but not limited to the weather, changing project needs and individual situations. Project activities shown cover most areas that you may be asked to get involved, but additional activities may arise that require your assistance and not all activities shown may be carried out in the period of your stay. Applicants are advised that these variables may require changes before or during a programme. Part of the challenge and growth opportunity is in adapting to changing conditions and overcoming the obstacles they may present.

## Trip Cancellations

Kaya reserves the right to cancel any programme if there are insufficient registrants (where minimum numbers apply) or if Kaya determines it is in the best interest of the applicant's safety and quality of programming to cancel the programme. Kaya is not responsible for other costs incurred by applicants preparing for the trip. Should a programme be cancelled by Kaya, for any reason, applicants will be offered the option of positions in other Kaya Programs or a full refund on all fees paid.
