

# Internship and Service Placements Abroad in Animal Science, Wildlife and Marine Biology

Looking for international placement opportunities in 2021? Kaya has supported, ethical programs where you can gain experience while making a difference!

## PLACEMENTS INCLUDE

### Marine Science in Tobacco Caye, Belize

Study Marine Science on the tiny island of Tobacco Caye. Feed into the work of the Belize Fisheries Department and learn about the world's second-largest coral reef as well as plastic pollution more generally. Practice hands-on species identification, spearfishing, data collection and more!

### Pre-Veterinary Wildlife Rescue and Rehabilitation in Zimbabwe

Interested in Wildlife Conservation, Zoology, Veterinary Science or Animal Care? Work at one of Africa's oldest wildlife sanctuaries, learning about and engaging in the care and rehabilitation of a range of species!

### Elephant Rescue and Reforestation in Rural Communities in Thailand

Work at an eco-tourism camp, supporting sick and aging elephants as well as unemployed Mahouts. Help restore the local jungle and teach English, leadership skills and environmental conservation to local children!

...and many more!
